
Corporate Fact Sheet

American Medical Systems, established in 1972 and headquartered in Minnetonka, Minnesota, is a diversified supplier of medical devices and procedures to cure incontinence, erectile dysfunction, benign prostate hyperplasia (BPH), pelvic floor repair and other pelvic disorders in men and women. American Medical Systems' products reduce or eliminate the incapacitating effects of these diseases, often through minimally invasive therapies. The Company's products were used to treat approximately 335,000 patients in 2009. AMS Japan provides support and solutions for patients with moderate to severe stress urinary incontinence by providing AMS 800, an artificial urinary sphincter approved by MHLW in September of 2009, in cooperation with doctors and interested parties.
